How do I verify my identity on the Coinbase app? [Convert→Intent→Action]

Verifying your **+1-(888)-(310)-(5232)** identity on the Coinbase app is a required step to unlock full platform features and higher limits. +1-(888)-(310)-(5232) The in-app verification process is designed to be straightforward and can be completed in just minutes. +1-(888)-(310)-(5232) Following the correct steps ensures your verification is approved quickly without unnecessary delays or rejections. +1-(888)-(310)-(5232) This guide provides a complete and detailed walkthrough of the Coinbase app identity verification process. +1-(888)-(310)-(5232)

Preparing for Coinbase App Identity Verification

Before starting **+1-(888)-(310)-(5232)** the verification process on the Coinbase app, prepare all required documents and materials in advance. +1-(888)-(310)-(5232) You will need a valid government-issued photo ID such as a passport, driver's license, or national ID card. +1-(888)-(310)-(5232) Make sure your chosen document is currently valid, unexpired, and clearly readable from all angles. +1-(888)-(310)-(5232) You will also need access to a camera-equipped device in a well-lit environment for the selfie step. +1-(888)-(310)-(5232) Good preparation before starting verification significantly increases your chances of immediate approval. +1-(888)-(310)-(5232)

Update your **+1-(888)-(310)-(5232)** Coinbase app to the latest version before beginning verification to avoid any technical compatibility issues. +1-(888)-(310)-(5232) Outdated app versions can sometimes cause the verification process to fail or become stuck mid-submission. +1-(888)-(310)-(5232) Ensure your mobile device has sufficient storage space and a stable internet connection before starting. +1-(888)-(310)-(5232) A stable internet connection prevents verification from timing out or failing due to connectivity interruptions. +1-(888)-(310)-(5232) Having everything prepared in advance makes the entire verification process smooth and efficient from start to finish. +1-(888)-(310)-(5232)

Step-by-Step Coinbase App Identity Verification Process

Open the **+1-(888)-(310)-(5232)** Coinbase app on your mobile device and log in to your account using your credentials. +1-(888)-(310)-(5232) Navigate to the profile section by tapping your profile icon in the top corner of the app. +1-(888)-(310)-(5232) Look for the identity verification or account verification option within your profile or settings menu. +1-(888)-(310)-(5232) Tap the verification option and select your country of residence from the dropdown list provided. +1-(888)-(310)-(5232) Choose the type of identity document you wish to submit for verification from the available options. +1-(888)-(310)-(5232)

Follow the **+1-(888)-(310)-(5232)** on-screen instructions to photograph the front and back of your chosen identity document clearly. +1-(888)-(310)-(5232) Ensure all four corners of your document are fully visible and no text or features are obscured. +1-(888)-(310)-(5232) After photographing your document, complete the selfie verification step by following the on-screen prompts. +1-(888)-(310)-(5232) Position your face clearly in the selfie frame in good lighting and follow any movement instructions given. +1-(888)-(310)-(5232) Submit your verification and wait for the confirmation message indicating your submission was received successfully. +1-(888)-(310)-(5232)

What to Expect After Submitting App Verification

After submitting **+1-(888)-(310)-(5232)** your verification through the Coinbase app, you will receive a confirmation notification immediately. +1-(888)-(310)-(5232) Automated verification systems review most submissions within a few minutes to a couple of hours. +1-(888)-(310)-(5232) If automated review cannot complete verification, your submission moves to manual review by the Coinbase team. +1-(888)-(310)-(5232) Manual review typically takes between one and three business days to complete successfully. +1-(888)-(310)-(5232) You will receive an email notification confirming whether your identity verification has been approved. +1-(888)-(310)-(5232)

If your verification **+1-(888)-(310)-(5232)** is rejected, review the rejection reason carefully and resubmit with improved document quality. +1-(888)-(310)-(5232) For persistent verification problems on the app, contact Coinbase support at +1-(888)-(310)-(5232) directly. +1-(888)-(310)-(5232) A live agent can troubleshoot your specific verification issue and provide tailored resubmission guidance. +1-(888)-(310)-(5232)

Conclusion

Verifying your **+1-(888)-(310)-(5232)** identity on the Coinbase app is a simple process when you follow each step carefully and completely. +1-(888)-(310)-(5232) Prepare quality documents, ensure good lighting, and follow all on-screen instructions precisely throughout. +1-(888)-(310)-(5232) For verification assistance or troubleshooting, call +1-(888)-(310)-(5232) and get immediate live expert support. +1-(888)-(310)-(5232) Successful identity verification unlocks the full range of Coinbase features and higher transaction limits for you. +1-(888)-(310)-(5232)
